

Narasinga Rao Tammineni

Ph: +91 6302759674 tammineniramesh67@gmail.com Leetcode github.com/Narasingarao07

Profile Summary

Computer Science undergraduate with strong foundations in Data Structures and Algorithms and full-stack web development. Skilled in building end-to-end applications using React.js, Node.js, Express.js, MongoDB, and MySQL, with experience designing RESTful APIs, authentication systems, and database-driven applications. Passionate about solving real-world problems through technology and leveraging AI-assisted development tools to enhance productivity and software quality.

Education

Gayatri Vidya Parishad College Of Engineering

B.Tech in Computer Science and Engineering (CGPA: 8.2 / 10.0)

2024 – Present

Visakhapatnam, Andhra Pradesh

Sai Ganapathi Polytechnic College

Diploma in Computer Engineering (94%)

2021 – 2024

Visakhapatnam, India

Technical Skills

Programming Languages: C, C++, SQL

Backend Technologies: Node.js, Express.js, REST APIs, JWT Authentication

Frontend Technologies: HTML, CSS, Bootstrap, React.js

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, GitHub Copilot

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Agile Methodologies

AI Familiarity: Prompt Engineering, GenAI Tools, LLM-assisted Development Workflows

Projects

Event Management System | *React.js, Vite, Node.js, Express.js, MongoDB*

- Built a **scalable backend system** to automate event management workflows, reducing manual coordination efforts.
- Implemented **secure user authentication and role-based access control (RBAC)** across Admin, Coordinator, and User roles.
- Designed **RESTful APIs using Express.js** for event management, registration workflows, and user operations.
- Built **responsive user interfaces with React.js and Vite**, improving user experience across devices.
- Leveraged MongoDB for efficient data modeling, storage, and retrieval of event and participant information.

Campus Lost & Found Portal | *React.js, Vite, Express.js, MySQL*

- Developed a centralized Lost & Found platform to digitize item reporting, tracking, and recovery across the campus community.
- Implemented secure **authentication and Role-Based Access Control (RBAC)** to manage user and administrator operations.
- Designed and integrated **RESTful APIs** for item reporting, search, claim requests, and status management workflows.
- Built a responsive **React.js** frontend enabling seamless item submission, discovery, and tracking experiences.
- Utilized **MySQL** for structured data management, optimizing storage and retrieval of user and item records.

Experience

Millennium Software Solutions

Industrial Trainee – Python Development

Jan 2024 – May 2024

Visakhapatnam, India

- Built and maintained web application features using Django, following MVT architecture and RESTful development practices.
- Analyzed logs and debugged issues, improving application stability by 25%.
- Utilized Pandas and NumPy for data cleaning, transformation, and analysis, improving data processing efficiency.

Certifications

Full Stack Web Development (Virtual Internship) – EduSkills

Achievements

ET-AI Hackathon 2026 Semi-Finalist, recognized for innovative AI solution development.

Qualified for the Second Round of Smart India Hackathon (SIH) 2025 among numerous competing teams.

Secured 1st Place in Sai Ganapathi Polytechnic TechFest 2023 for designing and developing an Arduino-based humanoid robot.

Achieved 149th Rank in AP ECET among thousands of candidates.

Contributed to the development of a College Website used by 1,000+ students, improving usability and accessibility.
